

50 YEARS OLD!

Amazingly we are celebrating our 50th birthday this month!

We were started by Mr Maurice Hood himself in April 1966 as a one man prosthetics lab behind a dental surgery in Bearwood.

I bet he couldn't imagine on that first day where the company would be 50 years on or the range of products and materials that would be used in dentistry.

Maurice himself has been retired for over 25 years yet we still work with dentists who know and worked with him.

We would like to thank everyone for their loyalty, support and contribution over the last half century. Here's to the next 50 years!

E-Mailed Invoices & Statements

We are looking to move as much of our invoicing and statements as possible over the next few months to electronic delivery through e-mail. This is partly to improve and speed up our service but also to reduce our carbon footprint.

We will proactively be contacting you to see if we can send the information electronically but please feel free to contact us with details of who and where you would like your invoices and statements sent.

The easiest way would be to e-mail us at accounts@mauricehood.co.uk from the e-mail address you would like us to send the invoices and statements.

Sign up to our mailing list to get the important news first at:
